

Nordic Built Environment LCA PhD forum - Call for abstracts

We are now welcoming abstracts for the first Nordic Built Environment LCA PhD forum held at NTNU in Trondheim, Norway on May 9th and 10th, 2022. This forum aims to provide PhD students working with LCA and the built environment the opportunity to openly discuss ongoing research with peers.

The participants should be registered PhD students with a relation to the Nordics. Selected PhD students present their PhD topic or a certain aspect of it in less than 20 minutes. Then there will be time for a detailed discussion. For each presentation, two students will be assigned beforehand to prepare and moderate questions. In contrast to scientific conferences, where the focus lies on showing polished results, this more informal setting enables open discussions about challenging topics and obstacles encountered on the way. The goal should be to have a student-student exchange with no or limited input from professors and senior researchers.

Important dates:

Abstract submission deadline: February 21st

Acceptance notification: March 31st

PhD Forum: May 9th & 10th

Abstract submission:

Please, send your abstract as a one-page PDF file to lca-phd-forum.ace@chalmers.se

Use the following structure:

- Title of PhD thesis
- Start date, envisioned end date
- Student name
- Supervisor name(s)
- Abstract (max 400 words) divided into four parts:
 - 1) Purpose
 - 2) Methods
 - 3) Results and Discussion
 - 4) Conclusions

The Nordic Built Environment LCA PhD student forum is organized by a collaboration between Norwegian University of Science and Technology (NTNU), Chalmers University of Technology, Aalborg University, Royal Institute of Technology (KTH), and Aalto University. The first forum held at NTNU is supported by the Research Centre on Zero Emissions Neighborhoods in Smart Cities (ZEN).
